WEIGHT, HEIGHT + BMI INSTANT READOUTS WITHOUT PUSHING A SINGLE BUTTON

The icon's powerful sonar touchless height rod combined with an all-in-one color display means the patient simply steps onto the scale platform and within a second your full measurements are all displayed onscreen instantly without having to press a single key for the ultimate in speed, hygiene, and accuracy.

THE NEXT EVOLUTION OF CLINICAL PATIENT MEASUREMENT HAS ARRIVED!

MINIMAL STEP

The icon's virtually-flat base is only 1.5 inches high, offering the ultimate in patient ease of use and comfort while weighing. Plus, the extra-wide 17 inch wide by 17 inch deep platform size allows bariatric weighing.

STATE-OF-THE-ART MEASUREMENT TECHNOLOGY THAT IS ICONIC

Every so often in history, the evolution of product technology takes a monumental step forward. DETECTO has been pioneering physical measurement since 1900 and along the way studying intensively what comprises an incredible healthcare weighing experience. As result of over a century of research, we introduce you to clinical weighing's new icon®.

DETECTO's icon® eye-level digital clinical scale with sonar height rod has an extra high capacity of 800 lb x 0.1 lb / 400 kg x 0.05 kg. The low-profile 17 in W x 17 in D platform is nearly flat at only 1.5 inches high. The icon® includes a non-medical grade standard AC adapter or can be powered by 12 AA batteries (not included). The touchless sonar height rod allows you to simply step on the scale and within seconds weight, height, and Body Mass Index will all be displayed onscreen without touching a single key. The Mother/Baby function factors the weight of infants and toddlers held by an adult.

DETECTO's icon® scales measure weight and height efficiently on patients of all ages and sizes.
