THE 2101KL

DIGITAL PLATFORM SCALE

The Certified ADA Compliant 2101KL is a comprehensive bariatric scale that supports up to 1000 pounds and provides the optimum in quality, reliability, and ease of use. . The scale's robust 4-point handrail design provides support for patients who need extra stability, allowing them to hold on securely while the scale delivers accurate weight measurements.

Designed to meet the needs of doctor's offices, hospitals, clinics, and acute and long-term care facilities, the scale's keypad features antimicrobial protection, a display head that swivels 180°, a large slip-resistant low-profile platform, and wheels that enable portability.

The scale's high-contrast color screen provides a user-friendly interface that includes BMI, hold/release, reweigh, recall, zero, KG/LB, tare, pre-tare and more. The exclusive Everlock® function allows the measuring unit (LB or KG) to be permanently locked on the scale.

The scale provides easy integration and seamless communication with today's EMR applications, the 2101KL includes a USB interface for connectivity with a computer, EMR software, or other electronic devices via various Health o meter® Professional Connectivity Solutions.

The 2101KL digital platform scale was designed to meet the US Access Boards Standards: Medical facilities operated by state and local governments, also known as public entities, must comply with the MDE Standards for Accessible Medical Diagnostic Equipment, which is enforced by the Department of Justice.

- Slip-resistant platform
- Handrail supports on both sides of platform
- 34" – 38" max. handrail height from platform
