THE 2650KL

DIGITAL WHEELCHAIR DUAL RAMP SCALE

THE 2700KL

DIGITAL WHEELCHAIR DUAL RAMP SCALE WITH EXTRA LARGE PLATFORM

The all-digital 2650KL and 2700KL support up to 1000 pounds and provide the optimum in quality, reliability, and ease of use. The ramps fold to save space, while the wide and low profile platform accommodates wheelchairs and provide a comfortable weighing experience for patients. The 2650KL features a medium-sized platform and folds for convenient storage. The 2700KL features the largest platform in the wheelchair collection to easily accommodate wide wheelchairs, a convenient choice for facilities where the scale remains in one location. Designed to meet the needs of hospitals, clinics, and acute and long-term care facilities, the scale's keypad features antimicrobial protection, a large non-skid low-profile platform, and dual ramps to easily wheel patients on and off the platform.

The remote display provides flexibility with the ability to be mounted on a wall or placed on a table. The scale's high-contrast color screen provides a user friendly interface that includes BMI, hold/release, reweigh, recall, zero, KG/LB, tare, pre-tare and more. The exclusive Everlock® function allows the measuring unit (LB or KG) to be permanently locked on the scale.

The scale provides easy integration and seamless communication with today's EMR applications, the 2650KL and 2700KL include a USB interface for connectivity with a computer, EMR software, or other electronic devices via various Health o meter® Professional Connectivity Solutions.
