THE 498KL

REMOTE DISPLAY DIGITAL FLOOR SCALE

The 498KL is a remote display digital scale that supports up to 660 pounds and provides the optimum in quality, reliability, and ease of use. The remote display provides flexibility with the ability to be mounted on a wall or placed on a table. It can be easily moved from location to location, to adapt to various workplace environments.

Designed to meet the needs of doctor's offices, hospitals, and clinics, the scale's large easy-to-read display, and the large non-skid low profile platform requires a minimal step-up, providing a safe weighing environment. For easy portability and storage, there is an optional carrying case.

The user-friendly digital interface includes features such as Zero, Tare, Hold/Release, Auto-off and more. The exclusive Everlock® function allows the measuring unit (LB or KG) to be permanently locked on the scale.

The 498KL provides easy integration and seamless communication with today's EMR applications with the option to incorporate wireless connectivity for interfacing with computers, EMR software, or other electronic devices.
